Welcome to the 2024 Glen Holme Sale

Sale day is where we put on public display the results of our selection and vision.

We aim to provide a team of easy-care, safe, sound, dual purpose rams that are quiet and productive. They have not been pampered or molly-coddled to get them to this point.

These rams have been tested by real world conditions, short of paddock feed this year and out in the rain, as all commercially run sheep are. No-one needs to make a big investment only to be disappointed because their ram team has been so artificially raised that they lose condition, or the wool goes off colour because of lot feeding or being raised in a ram shed to mask any effects of rain.

Our rams have been heavily selected for type and quality. We are pleased to offer this group.

We have made many observations and taken measurements so that we can provide clients with a large suite of breeding values to make wise informed choices. Many of these values relate to health and welfare and result in longer lifetime productivity for our clients' flocks.

Kind Regards,

Allen and Joy Kelly, Lauren and Damien Philp, Ryan and Hayden.

Our rams have undergone careful production measurement, data collection and analysis to provide ASBVs (breeding values).

Progeny at Glen Holme are recorded for Body Weight, Fat and Muscle, Greasy Fleece Weight, Fibre Diameter, CV of fibre diameter and graded for visually assessed traits.

Dohnes are analysed separately to the Poll Merinos – in the Dohne Analysis or Merino Select, as their breed dictates. Unfortunately, whilst the ASBV headings are the same, they cannot be compared between breeds, nor can the indexes be compared.

We aim to provide a wide range of ASBVs in our catalogue. Please look for any additional information, indexes and breeding values on the Sheep Genetics Website.
